PLACES ON THIS TRIP

- Heydar Aliyev Center: A building complex of 57,500 square metres in Baku, designed by the architect Zaha Hadid. Its curved shape has no sharp angles.
- Old City (Inner City): The walled Old City is the historic core of Baku. In 2000 it became the first UNESCO World Heritage Site in Azerbaijan, with the Palace of the Shirvanshahs and the Maiden Tower.
- Ateshgah Fire Temple: A five-sided fire temple from the 17th and 18th centuries, used as a Hindu and Zoroastrian place of worship. Its natural flame went out in 1969, and piped gas now keeps it burning.
- Yanardag (Fire Mountain): Yanardag means 'blazing mountain'. A natural gas fire burns all the time on this hillside on the Absheron Peninsula, about 25 km north of Baku.
- Gobustan: Gobustan has thousands of rock engravings that show hunting scenes, people, ships, stars and animals. UNESCO added the Gobustan Rock Art Cultural Landscape to the World Heritage List in 2007.
- Mud volcanoes: The mud volcanoes near Gobustan push out mud and gas.
- Tufandag: Tufandag is a winter and summer tourism complex at Gabala. Its cable cars run all year.
- Seven Beauties waterfall: A waterfall with seven levels in the forest near Gabala. The visit includes a short nature walk.
